## ***Recognizing Excellence in Merit Shop Construction***

Now in its 29<sup>th</sup> year, the program is designed to recognize and celebrate the outstanding achievements of ABC of Oklahoma general and specialty contractors. Your company has the opportunity to compete for honors in the commercial construction industry's premier annual awards program – the ABC of Oklahoma Excellence in Construction Awards competition – recognizing the outstanding construction projects of the year.

All award winners will be recognized at the October 29<sup>th</sup> awards celebration at the Cox Business Center Ballroom (formerly Tulsa Convention Center). The ceremony will feature a multi-media presentation highlighting the Eagle award winners, and a printed program highlighting each award-winning project. All winners will be recognized in a special edition of *The Advantage* newsletter, on the ABC of Oklahoma website and a news release for Eagle Award winners will be distributed to local media outlets.

All chapter winners will automatically be qualified to enter the ABC National Excellence in Construction awards program where the winning projects will be honored at the association's National Awards celebration in March 2016 at the Broward Convention Center in Fort Lauderdale, FL.

### ***Purpose:***

The Associated Builders and Contractors of Oklahoma Excellence in Construction Awards are designed to recognize and publicize outstanding projects built by members of the association. This recognition will bring about a greater awareness in our area of the quality of work being produced by merit shop contractors. And, by calling attention to the "best of the best", we hope to continue to raise standards throughout the construction industry.

### ***Eligibility:***

Any general contractor or subcontractor member in good standing of Associated Builders & Contractors of Oklahoma may enter. Only projects completed between October 24, 2014 through September 30, 2015 are eligible. The date on the Certificate of Substantial Completion shall determine the project's completion. There is no geographic limitation on the location of any project entered.

Owner's written approval for projects to be entered and judged should be obtained in advance.

### ***Judging:***

A panel of judges representing a cross section of the industry will select our winners. Judges will evaluate entries based on the material submitted and will consider factors such as attractiveness of design, complexity, workmanship, innovation, unusual challenges or problems overcome, etc. No contractor member or staff of Associated Builders & Contractors of Oklahoma will participate as judges.

### ***Awards:***

Recognition in the form of an "Award of Excellence" and appropriate publicity will be given to the winning member firm in each category. Winners will be presented their awards at a special Awards Banquet on October 29, 2015. This gala event will feature a visual display of winning projects in each category. Winners in the competition are eligible to enter the National "Excellence in Construction" Awards Competition, sponsored by National Associated Builders and Contractors, Inc.

# 2015 Associated Builders & Contractors of Oklahoma Excellence in Construction Entry Steps & Requirements

---

All entries must be received by ABC of Oklahoma by **August 21, 2015**. Entries must be submitted in the three-ring binder with tabs provided by ABC of Oklahoma. There is a total possible score of 100 points, listed are the categories and their point values.

## **Overall Presentation and Conformance to Entry Requirements** *5 points*

### **1. Official Entry Form, Project Description & Contracted Scope**

Complete the Official Entry Form with a 50 word (maximum) paragraph describing what is special about your project that can be used if you are a winner in the EIC Program. The Contracted Scope is up to one full page, ensuring legibility when selecting font design and size. Provide a description of your scope for this project including the following information; type of construction, size of project, contract value, length of project, and percentage of labor that is self-performed. Samples of Contracted Scopes may be viewed online at ABC National's webpage - [www.abc.org/eic](http://www.abc.org/eic). *15 points*

### **2. Narrative**

The narrative should include a detailed description of the project, any innovative features, safety record, quality control, scheduling, etc. Responses should include: type of construction; size of project; length of project. What percentage of work is self-performed? Why is this project special? What qualifies it for an award? Description of innovative programs relating to personnel management, quality control, scheduling, value engineering, dollar value, special obstacles overcome; degree of difficulty in completing the project; extenuating circumstances, etc. Maximum two pages, double-spaced. Provide narrative on disk or by email to [btaylor@abcokla.org](mailto:btaylor@abcokla.org). *Maximum of 30 points*

### **3. References**

Endorsements, third party comments, letters of recommendation from third-parties involved with the project. General contractors should submit letters from at least the owner and the architect. Specialty contractors should submit a letter from at least the general contractor. *Maximum of 5 points*

### **4. Subcontractors and Suppliers**

List ALL Subcontractors and Suppliers involved in the project. Also list ABC Member Professionals supporting the project (bank, insurance, attorney, etc.). Highlight ABC members - enclosed is a listing of current ABC Members for your convenience. *Maximum of 3 points*

### **5. Safety Questionnaire**

Complete the Safety Questionnaire and describe your company's safety program. *Maximum of 3 points*

### **6. Safety Training & Evaluation Process**

If your company is a Safety Training & Evaluation Process (STEP) award recipient include a copy of the most current company certificate or letter. If your company is not a STEP recipient leave this tab empty. Go to <http://www.abc.org/en-us/safety/step.aspx> to find out about this ABC National Program. *2 points*

### **7. Accredited Quality Contractor**

If your company is designated as an ABC Accredited Quality Contractor (AQC), include a copy of the company certificate or renewal letter. If your company is not an AQC recipient leave this tab empty. Go to <http://www.abc.org/en-us/membership/growyourbusiness/accreditedqualitycontractors.aspx> to find out more about this ABC National Program. *2 points*

### **8. Photos and Artwork**

Include Photos (8x10) in print (minimum of 5, maximum of 10). A CD or flash drive with your digital photos saved at a minimum of 300 dpi resolution is required (see Digital Photo Guidelines box on this page) or email photos to [btaylor@abcokla.org](mailto:btaylor@abcokla.org). The CD or flash drive must be properly labeled and securely fastened. The label should include the company name and project name. Because of the volume of entries anticipated and their potential widespread locations, judges will not visit project sites. Therefore, **the photos are very important. The judges decision will be based on the narrative and photos presented with each entry. They must adequately depict the project.** Also include camera-ready artwork of the company logo. Disks and photos will be returned after the Awards Banquet. *Maximum of 35 points*

## **DIGITAL PHOTO GUIDELINES**

Photos should be on a CD, flash drive or emailed to [btaylor@abcokla.org](mailto:btaylor@abcokla.org).  
Photos should be saved at 300 dpi resolution, 4"x6" or larger.  
Photos should be high-resolution .jpg files.  
Photos must **NOT** be submitted with a picture collage or embedded in a software program such as PowerPoint or Acrobat.  
Photos must **NOT** include any text or framing.

# 2015 ABC of Oklahoma Excellence in Construction

## AWARD DEADLINES AND DATES

Complete the final application requirements and assemble in the Official Entry Binder. Return the Official Entry Binder by **August 21** to ABC of Oklahoma.

The Excellence in Construction Awards Banquet will be held **October 29** at the Cox Business Center (formerly Tulsa Convention Center), Tulsa, Oklahoma.

## TIPS TO BUILD A WINNING EXCELLENCE IN CONSTRUCTION ENTRY

For members who are preparing their entry for this year's competition, below are some tips to achieve a higher score:

The Project Description (50 words) defines the project. This will be used to aid in writing the Project Announcement if your project is a winner. Use this space to tell what's significant about this project.

The Contracted Scope is up to one full page, ensuring legibility when selecting font design and size. Provide a description of your scope for this project including the following information; type of construction, size of project, contract value, length of project, and percentage of labor that is self-performed. This is the first thing the judges read and will be used to aid in writing the Project Announcement if your project is a winner. Use this space to tell what's significant about this project.

**Samples of Contracted Scopes may be viewed online at ABC National's webpage - [www.abc.org/eic](http://www.abc.org/eic).**

The narrative (2 pages) tells the whole story about the project. Worth almost a third of the total point value, the narrative should be the highlight of the application. This is where applicants can brag about why a project is special. Obstacles that were overcome and explanations of extenuating circumstances should be communicated clearly and succinctly. Enlist the project manager and superintendent or other on-site personnel to help write this. Although some projects will be used very philanthropically be sure to tell about the project, not just what the project will be used for.

Safety is a priority. Be sure to include the information requested in this section of the application, but also take the opportunity to describe innovative safety programs that were utilized during the project.

## HOW TO SUBMIT THE BEST PHOTOS FOR ABC'S EIC COMPETITION

Photographs are a great way to make a project stand out and are worth almost a third of the total point value. Below are helpful tips for choosing photos in this year's competition.

Let photos tell the story. Remember, the judges can't see the project in person, so it's helpful to provide 'in progress' photos for new construction or 'before and after' photos for restoration and renovation projects.

Include photos (8x10) in print in the binder (minimum of 5, maximum of 10) and the same photos digitally (see Digital Guidelines below). Also include camera-ready artwork of the company logo. Disks and photos will be returned after the awards banquet.

**CD or Flashdrive** - Be sure it is **SECURELY** fastened – and labeled with company and project name. Note that binders are moved several times, and the disc or flashdrive must be fastened so that it would not fall out if the binder was carried sideways or upside down. Also, the disc or flashdrive is eventually separated from the binder, and must be identifiable.

Safety, safety, safety. Analyze each photo submitted for any possible safety violations. Safety is a priority at ABC, and points will not be awarded for a photo that contains a safety violation. Involve the company's safety expert if necessary when selecting photos.

## DIGITAL PHOTO GUIDELINES

Photos should be on a CD, flash drive or emailed to [btaylor@abcokla.org](mailto:btaylor@abcokla.org).

Photos should be saved at 300 dpi resolution, 4"x6" or larger.

Photos should be high-resolution .jpg files.

Photos must **NOT** be submitted with a picture collage or embedded in a software program (PowerPoint or Adobe).

Photos must **NOT** include any text or framing.

### CONTRACTED SCOPE

As San Antonio continues to grab national attention by snaring major corporate relocations and posting a solid economic growth forecast, local developers are finding ways to capitalize on the trend. Corporate relocations coming to San Antonio have selected to take their campuses to the suburbs where their employees live thus reducing their travel time. Developers, like RBOC Partners, Ltd., are finding ways to infiltrate the limited travel distance people are willing to go by introducing mixed-use developments like La Arcata.

Middleman Construction Company entered into an agreement with RBOC Partners, Ltd. to provide pre-construction, preliminary estimating, project management, and construction services for the La Arcata development.

The project, situated on a 10-acre site, consisted of a three-story office building (100,000 sq.ft.) with a five-story parking garage (168,000 sq.ft./500 spaces), two-story retail center (92,000 sq.ft.), and two out-paired retail buildings (25,000 sq.ft.) located across a newly constructed 60' public roadway. The development is tied together by a pair of La Arcata landmarks placed directly on the corner of Tuscany Stone and Loop 1604 and built to resemble an ancient Roman aqueduct system in disrepair but providing a gateway to the development. Construction began in September 2005 and was completed September 2007.

(Aerial view of 10-acre development)

To incorporate a Tuscan architectural theme, clay tile roofing, limestone masonry, brick pavers, ornamental painting, EIFS accents, and architectural features such as stone archways and cantera columns were used on the exterior. The interior of the office building has travertine tile floors custom quarried in Spain and handcrafted light fixtures. Also, the office has a state-of-the-art computerized 42" touch screen directory, mechanical energy management, building automation system, and a controlled-access system to facilitate off-site property management.

(3-story office building features architectural domes, decorative columns, stone archways, and cantera columns)

In conclusion, Middleman's \$20.3 million contract included approximately 20% of self-performed work related to carpentry, concrete, and interior finishes; and 29 ABC members assisted in the project's success. Middleman Construction Company was honored when RBOC chose our firm to be a part of their team to create this unique, Class A, Tuscan-themed mixed-use development. We are pleased to submit this project for consideration in this year's ABC Excellence in Construction Award program.

2007 ABC Excellence in Construction  
Entry Category: Commercial \$10-25 Million

# 2015 Associated Builders & Contractors of Oklahoma Excellence in Construction Official Entry Form

*Provide the requested information EXACTLY as it should appear in award-related materials and on the award.*

## Contractor / Primary Contact Information

Contractor firm entering the project: \_\_\_\_\_

Contact name for entry: \_\_\_\_\_

Mailing Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

**Entry Category Reassignment** - ABC reserves the right to change an entry's original category if it determines that a project was entered in the incorrect category or the project's opportunity to win will be enhanced by the change to the new category. ABC also reserves the right to redistribute the contract volume levels within a category.

***Projects with members performing as general contractors or construction managers:***

**Mega-Projects** includes all projects more than \$100 million, regardless of type, whether General Contractor or Construction Management.

**Commercial** includes office buildings, banks, retail facilities, hotels or mixed use buildings.

**Community/Public Service** includes philanthropic projects, regardless of type, that enhanced the community, using substantial resources donated by the contractor. Entries should include information detailing the donated resources.

**Federal Government/Military** includes all projects owned by the Federal Government, with the exception of transportation infrastructure and utilities.

**Healthcare** hospitals, assisted living, nursing homes and other licensed medical facilities.

**Historical Restoration** covers restoration of buildings that are registered as historical, or are eligible to be registered as historical, on a state or the national registry of historic places.

**Industrial** category covers manufacturing plants and facilities, refineries and similar types of construction.

**Infrastructure-Heavy** covers projects streets or highways, dams, bridges and parks.

***These include both ground-up construction and tenant finish. Each project may only be entered into one category of completion.***

**Institutional** covers buildings built for colleges, elementary or secondary schools, churches, local government structures; with the exception of healthcare facilities.

**Pre-Engineered Building** encompasses commercial, industrial and institutional building projects where the primary structure is a pre-engineered metal building. Previous winners include an indoor skating complex, a boat manufacturing plant and an office/warehouse facility. Entries should include information regarding the extent of the project this is pre-engineered (i.e. are there conventional components or portions of the building?) The contractor's role on the project (i.e. supply and erect steel, general contractor or design/builder) and why a pre-engineered building was utilized.

**Public Works/Environment** covers water treatment plants and sewage treatment plants.

**Renovation** includes the renovation or restoration of non-historical, existing buildings with more than 50 percent of square footage that has been renovated or restored.

**Residential** covers single-family homes and multi-family projects and condominiums, including independent living retirement communities.

**Other Construction** includes construction not specifically referred to in the above, such as theme parks, skate parks, water parks, zoos, and other unique types of projects.

***Projects with members performing as specialty contractors:***

**Community/Public Service** includes philanthropic projects, regardless of type, that enhanced the community, using substantial resources donated by the contractor. Entries should include information detailing the donated resources.

**Electrical - Commercial** systems in a facility built for the benefit of people comfort and occupancy such as: office buildings, hospitals, schools, shopping centers, call centers, multi-family residential, hotels, convention centers, fountain features in a commercial facility, sports arena and stadia, fire or security alarms, parking lots, medical laboratories or renovation in an existing facility.

**Electrical - Industrial** systems in a facility built for the purpose of facilitating processes or manufacturing. Examples are manufacturing plants, processing plants, clean rooms, data centers, printing and processing centers, airports, animal facilities or electrical renovation in an existing industrial facility.

**Exterior** includes masonry, precast, stone and all other exterior finishes.

**Interior** Areas to include but not limited to are as follows: Metal stud and gypsum, Ceiling finishes, Painting and wall coverings, Other wall finishes and flooring. It is our intent to award based on degree of complexity and high end finishes showcasing the abilities

**Mechanical - Commercial** systems in a facility built for the benefit of people comfort and occupancy such as office buildings, hospitals, schools, shopping centers, call centers, multi-family residential, hotels, convention centers, fountain features in a commercial facility, sports arenas and stadiums, medical laboratories or mechanical renovation in an existing commercial facility.

**Mechanical - Industrial** systems in a facility built for the purpose of facilitating processes or manufacturing. Examples are manufacturing plants, processing plants, clean rooms, data centers, printing and processing centers, animal facilities or mechanical renovation in an existing industrial facility.

**Sitework/Landscape/Hardscape** covers interior or exterior landscaping and parking lots.

**Other Specialty Construction** covers construction not specifically referred to in the above specialty categories, such as roofing, fountain features or artistic scaffolding.

***These are categories where members perform Specialty Contracting and are not acting as the general contractor or construction manager.***

# 2015 Associated Builders & Contractors of Oklahoma Photographer's Use Authorization

---

If any of photos being submitted were taken by a third-party photographer, the photographer's written authorization to use the photos is required. There are two ways to comply: (1) the photographer can sign and date the licensing agreement included in this document, or (2) applicant must submit a letter from the photographer giving ABC authorization to use the photos, which must follow the licensing agreement in this document. No changes are allowed to this document.

**Photographs** (This section may be copied to a separate page for ease of gaining signature. No amendments will be accepted.) Photographs submitted with the application have been licensed by the photographer to be used by ABC. Applicant has obtained the signature of any third party photographer to reprint the photographs without limitations.

License to Use: The undersigned photographer hereby grants Associated Builders and Contractors of Oklahoma ("ABC") a non-exclusive license regarding my photographs submitted by applicant in support of its entry in the ABC of Oklahoma Excellence in Construction Awards competition ("EIC Competition"). This license grants ABC an unlimited right to use, reproduce, crop, resize, publicly display, distribute, and transmit electronically including on the internet, my photographs in connection with the EIC Competition including but not limited to the promotion of the EIC Competition and the announcement and promotion of any awards, without payment of any royalty or license or other fee by or from ABC or applicant or agent or other representative of ABC or applicant.

Photographer's Name (signature): \_\_\_\_\_

Date: \_\_\_\_\_ Phone: \_\_\_\_\_

Photographer's Name (print): \_\_\_\_\_

## Notification and News Releases

ABC of Oklahoma Excellence in Construction Award winners will be notified after the judging process. News releases will be held until after the actual awards ceremony takes place October 29, 2015. Until that time the winners agree to not make a press release.
